Domestic Travel and COVID-19

April 9, 2021

In keeping with updated Centers for Disease Control recommendations we are amending our quarantine and testing policy for anyone who is returning after a trip involving **DOMESTIC** travel (Including air travel). This policy applies to all Diocesan employees and Students enrolled in Diocesan/Parish Schools. International travel rules for Covid testing and quarantine are still in effect as indicated in the memorandum of January 4, 2021.

Anyone who has received **the required two doses** of either the Moderna or Pfizer vaccine or the single dose Johnson & Johnson vaccine (or other approved vaccine regimen) or who has recovered from Covid-19 within 90 days will **not** have to quarantine or test after returning from travel. Proof of vaccination or proof of recovery date (doctor note or positive test result) will be required before returning to work or school and the 90 day period following recovery will be adhered to rigidly.

Without meeting the above criteria, a quarantine of 10 days from the date of return will be required unless any potential covid symptoms develop. If **ANY** potential covid symptoms develop at any stage, individuals must quarantine and retest according to prescribed protocols. All other Diocesan protocols regarding exposure to others who may be positive for Covid-19 remain in effect. Diocesan policies are independent of public guidelines given our unique circumstances with churches and schools and should not be considered amended unless/until notified by the Diocese of Palm Beach.

Contact your school administrator with any questions.
